The 100K campaign, ready to switch on

THE CAMPAIGN

Power your next move.

2,000 sign-ups a day for 50 days. 100,000 sign-ups and 20,000 active circles, on a ₦95M budget.

PR: writers commissioned for third-party articles across news platforms. Invoice raised.

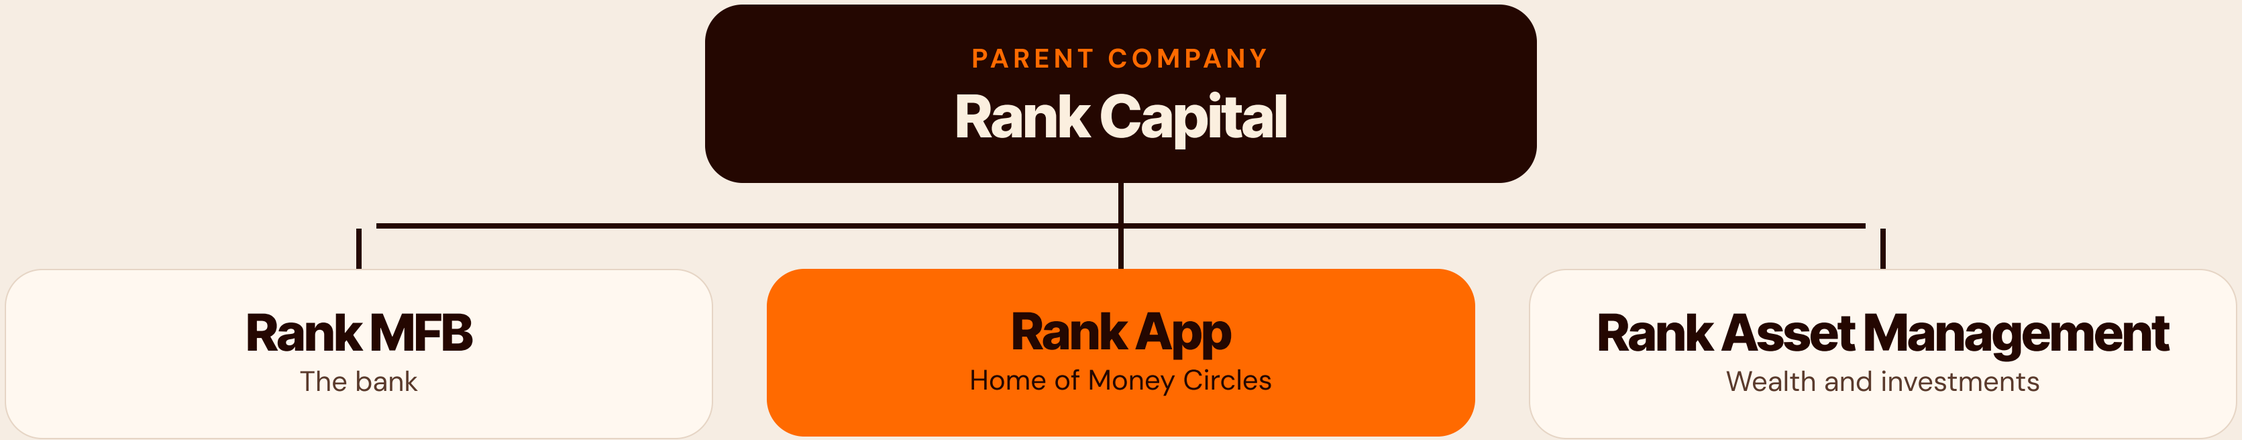

Pulse: vox pop brief done. Nigerians on their ajo experiences, with Money Circles as the answer. Invoice raised.

Video production: everyday (tier 2) campaign videos with actors and a location. Invoice raised.

Hero, influencers, ads: DJ Tunde series written, creators lined up, four ad platforms set up.

One Rank, four companies

A big step in October: the whole team now understands Rank as a group of separate companies, each with its own people and its own digital identity.

DONE

Each subsidiary broken down by its people · separate digital identities created · every company now has its own social media pages, shared with the team

OUR FOCUS

Grow each company on its own over time. For now, Marketing's priority stays Money Circles and the 100K campaign, while we keep supporting the others.

How it went: this is top of the funnel, so we can't fully measure it in numbers yet. But we left a strong impression on the ecosystem, and the session went very well.
