Rank at Uyo Fitness Festival 8.0

What success looks like, and how we'll measure it.

THE EVENT

Awareness first: making Rank known across Nigeria

Uyo Fitness Festival is in its 8th season and bills itself as the biggest fitness gathering in the South: workouts, dance, expert seminars and networking, promoted on radio, social and in the press.

01 **A new market.** Our first real footprint in the South-South, beyond Lagos.

02 **The right crowd.** Fitness is about goals and discipline. So is saving.

03 **A ready-made story.** Rank Goals and Money Circles fit gym buddies and fitness goals.

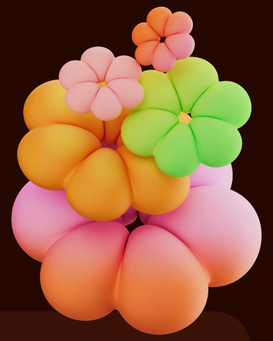

EXPECTED TURNOUT

~1,000

people in one place, in a city we haven't reached yet.

WHAT SUCCESS LOOKS LIKE

Three goals for the day

01 · Reach

1,000

people meet Rank in person

Our brand on the ground, at our stand and with everyone who stops by it.

02 · Sign-ups

300–500

new Rank users

A 30–50% close rate, in line with what we've converted at past events.

03 · Impressions

15K

impressions across our socials

From an event recap and two posts of content from the day.

The funnel ~1,000 attendees → 30–50% close → **300–500 sign-ups** + **15K online impressions**

THE BONUS VALUE

What else we take home from Uyo

01

Reach beyond the venue

The festival's own radio, social and press promotion carries sponsor brands to people who never attend.

02

A warm lead list

Not everyone signs up on the day. We collect contacts from the rest and follow up by email and SMS.

03

A second wave of sign-ups

Every new user leaves with their referral link, so Uyo keeps growing after the event ends.

04

A content bank

Photos, video and testimonials we can reuse in ads and posts long after the day.

05

Local voices

Relationships with the coaches and creators on the festival lineup, who can speak for Rank in their cities.

06

A playbook for the next city

What we learn about cost per sign-up outside Lagos tells us where to go next.

HOW WE'LL MEASURE IT

The post-event scorecard

METRIC	TARGET	HOW WE TRACK IT
Attendees reached	**~1,000**	Organiser's headcount, plus visits to our stand
Sign-ups	**300–500**	An event-only referral code and QR code, so every sign-up is counted as Uyo
Social impressions	**15K**	Combined impressions on the event recap and the two event posts
Follow-up leads	**Report**	Contacts collected from people who didn't sign up on the day
Active users	**Report**	How many Uyo sign-ups make their first deposit within 30 days

We'll bring the full scorecard back to this group within a week of the festival.
