Seven things we moved forward

01 Money Circles app and product testing

02 The 100k sign-ups push

03 Lagos Life game integration

04 Emails and push notifications

05 Tier 1 to Tier 2 migration campaign

01 · PRODUCT TESTING

We tested Money Circles like a new user

Sign up to joining a circle, end to end, to catch anything confusing or broken before we push it harder.

SESSION 1

Virtual

How people find their way on their own.

SESSION 2

In person

How they navigate with someone beside them.

Next: collating feedback for the product team so fixes can be prioritised.

02 · THE 100K PUSH

Building the engine for 100,000 sign-ups

01
Marketing plan
The overall roadmap, timelines and targets.

02
PR strategy
Getting Rank in front of the right media and audiences.

03
Content
What we post, where, and how often to drive downloads.

04
Influencers
Creators who can speak to our audience authentically.

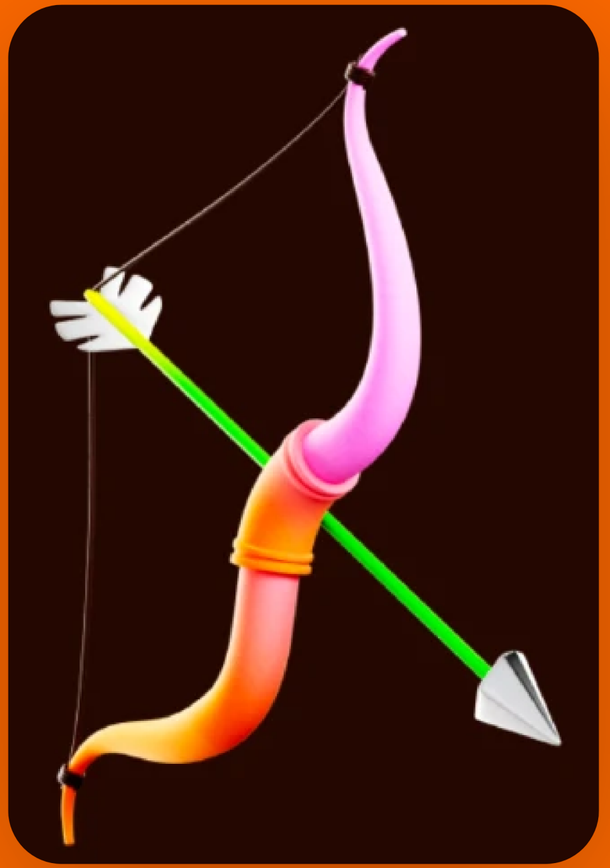

05
Ads
Paid campaigns to scale reach and acquisition.

All five feed one goal: every channel works toward the same sign-up target.

03 · NEW CHANNEL

LIVE NOW

Rank is inside Lagos Life

Our ad now runs in the Lagos Life game: a young, engaged Lagos audience in a fun, less crowded space than social feeds.

We'll track how it performs, then decide whether to scale it.

04 + 05 · RETENTION AND GROWTH

Keeping users active, and moving them up

Emails and push notifications

Regular nudges remind people what they can do on the app, bring them back in, and keep Rank top of mind between transactions.

TIER 1 → TIER 2 MIGRATION

48

users migrated last week

Upgrading unlocks more of the app and grows active, verified users. We're pushing to grow this every week.

06 + 07 · TRUST AND CONTENT

Building credibility and a content bank

Rank Wikipedia articles

A credible, well-sourced page builds trust and gives anyone searching for us accurate information.

Dr Money scripts

More episodes written ahead of the next shoot, so the series has a bank of content ready to film and post consistently.
