WHY + WHAT NOW

What the ads are telling us

More spend didn’t buy more orders. The winners changed this week.

All on one platform. That’s the risk to fix this week.

IMPROVED

LXN Video Campaign

₦178,628 a sale last week, ₦37,660 this week. Now our cheapest sale. Keep it running.

ON WATCH

LXN Green

Spend almost doubled to ₦272K, but a sale now costs ₦136K (was ₦46.7K). Pull it back.

DROPPED

Six Months Visitors

Last week’s best at ₦19,160 a sale. ₦64,460 and no sales this week. Needs fresh creative.

CHECK

Six Months Catalogue

Meant to be off, but Meta still shows it active: ₦40,862 spent, 1 sale.

KLAVIYO

Email paid for itself

The ₦52k store-credit email brought back 2 customers in 3 days.

The credit cost us ₦104K and brought in ₦773K. Meta cost ₦62.9K per order.

ALSO FROM EMAIL

nck1431 (₦278,200) used the store-credit code, so email drove 3 orders, ₦838,850.

TO FLAG

The code broke on the first send and needed a follow-up. 12 people unsubscribed across the 4 sends.

LAST WEEK

What I worked on

Email did the heavy lifting.

01

₦52k store-credit email

Sent to 2,704 customers and 65 abandoned carts. 2 orders, ₦773K.

02

Code fix + follow-up

Fixed the store-credit code and sent a follow-up to both lists on Friday.

03

New LXN ad set

Launched on Meta on Wednesday. 1 sale so far at ₦78K.

04

Abandoned checkout flow

Ran all week in the background. 1 order, ₦65,650.

05

Orders cleared

All 9 orders fulfilled, plus the 5 left open from the week before.

06

Social media plan

Held over. We didn’t finish the conversation, so it lands today.

This *week*

01 **Social media plan lands today**

A separate plan for every platform, held over from last week.

02 **Go beyond Meta, compulsory**

All our ad spend is on one platform. We start using more than Meta this week.

03 **Influencer campaigns start**

Start working with influencers to create UGC for our ads and pages.

04 **Campaigns live on every focus product**

Each product we’re focusing on gets its own live campaign this week.

Already one order today: 2 NOK Stripe Shirts, ₦259,980.

2 Nov to 8 Nov. Next report lands Monday 9 Nov.
