MARKETING · WEEKLY UPDATE · 2 TO 6 NOVEMBER 2026

Last week at Rank

Keeping customers active, a 90% success rate on the final Circles app test, and getting ready to go live.

Last week in brief

Retention. We kept our active customers active with push notifications and emails. We had about 1,200 active customers on the app last week, and 100 new sign-ups.

Circles app test. The final test hit a 90% success rate: 9 in every 10 people who tried Circles got all the way into a Circle.

Content. We started the Circles shoot for our campaign content.

Planning ahead. We started end-of-year plans for Rank Capital's subsidiaries, our end-of-year wrap, and International Men's Day on 19 November.

02 · RETENTION

Keeping active customers active

~1,200

active customers on the app last week

Our always-on retention work carried on all week. We sent push notifications and emails to every active customer, reminding them what they can do in the app and bringing them back between transactions.

03 · SIGN-UPS

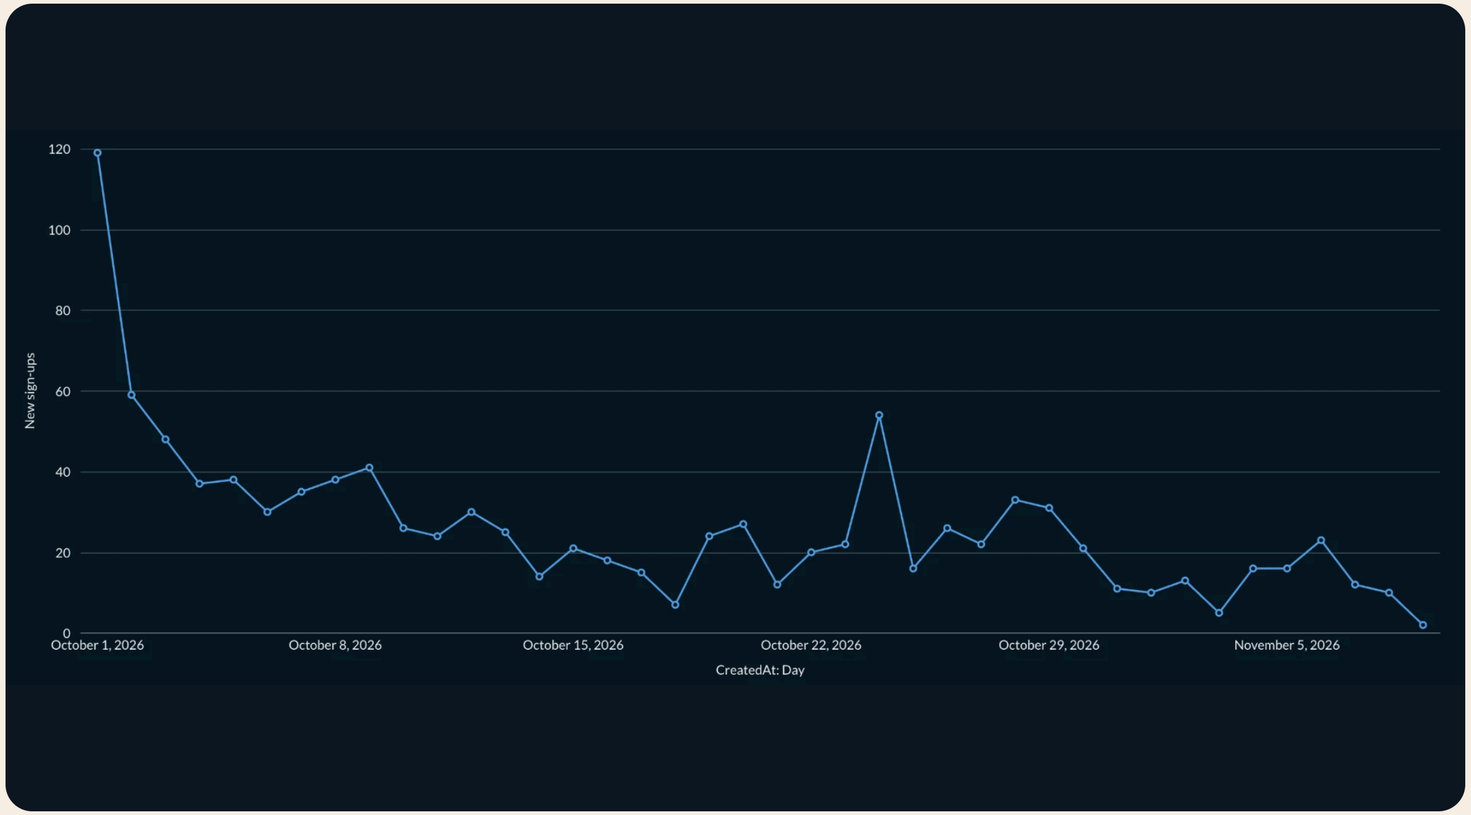

100 new sign-ups last week

100

new sign-ups, 2 to 8 November

That's about 14 new people a day, with Friday 6 November our busiest day of the week.

These are organic numbers, before any Circles campaign spend. Our target once we go live is 2,000 sign-ups a day, so this is the baseline we're building from.

Daily new sign-ups, 1 October to 9 November. Source: Rank analytics dashboard.

The final app test passed

90%

success rate on the final test

Out of every 10 people who tried to use Circles, 9 made it all the way into a Circle.

That's a long way from where we started: 0% in the first test in October, and 9% in the second. The fixes from both rounds are now working.

It means Circles is ready to go live.

What else moved forward

Circles shoot

We started shooting the content for the Circles campaign, so it's ready for launch.

End-of-year plans for our subsidiaries

We started working on end-of-year plans for Rank Capital's subsidiaries, beginning with Rank MFB and Rank Capital.

End-of-year wrap

Work has started on our end-of-year wrap, going out at the end of the year. We'll be reaching out to some people across the team to help.

International Men's Day, 19 November

Planning has started. We may also reach out to some people on the internal team to take part.

06 · THIS WEEK

Circles goes live

With a 90% success rate on the app, we can now go live. This week is heavily focused on Circles and our Q4 targets.

Going live means three things:

> **Live campaigns.** Our paid campaigns switch on across Google, Meta, TikTok and Snapchat.
>
> **Influencers.** Our creators go live with their Circles content.
>
> **Conversations.** We start the online conversations that drive people to Circles.

We spent a big part of last week aligning on all of this so we can hit our goals. Everything else carries on, but Circles comes first.
